THERE'S SQUID EVERYWHERE

This is Squid Day Out - the gleaming jewel in the crown of tentacles that is **Spring Bay Squid Festival**.

The event is crammed full of fine sounds, astonishing talks, tasty treats and cephalopodic oddities — we think you'll like it.

However, this is only one event in a whole festival of squid-themed business. We have a cabaret night, art classes, more music, a bush food tour, dining experiences... and the incredible nighttime audio-visual spectacular that is **Squid Theory**.

Co-presented by Big hART, Squid Theory will transform a humble boat into a floating cinema screen, musical instrument and performance stage; bringing Triabunna Wharf to life for one very special Saturday night.
